

Adult/Senior Citizen Care

Author:Matthew Tully Moser

Problem Statement

People are having problems because of the lack of availability in the adult healthcare space and they feel as if they can not find the proper care for loved ones often settling for a non desirable option. Our solution should allow users access to a database with different adult/senior citizen healthcare providers.

Who is experiencing the problem?

People trying to find appropriate healthcare for their adult/elderly loved ones.

Where does the problem present itself?

The problem typically occurs when people are searching for adique adult healthcare.

Why does it matter?

The people who need help in their everyday lives are afforded the proper care they deserve.
